Bob,

Below is accurate as to my findings from my research in the Terrebonne Parish Courthouse. Please let me know if you need anything else.

Thanks,

Bryan Hamner

Bryan,

Via return email, please confirm if the following information correctly summarizes your findings from your research in the Terrebonne Parish Land Records grantor/grantee index for the period 1957 through 1979:

1. You found only ten recorded instruments that documented Delta Iron Works, Inc, had purchased or sold separate parcels of land in Terrebonne Parish.
2. You did, as a pdf attachment, email copies of the same ten instruments to Robert Werner.
3. You did, as a pdf attachment, also email to Robert Werner a copy of the recorded instrument that documents the corporate merger of Delta Iron works, Inc., a Delaware corporation, into Chromalloy American Corporation, a Delaware corporation.
4. You found no recorded instrument that documented Delta Iron Works, Inc, had sold any land in Terrebonne Parish to Chromalloy American Corporation during the period 1957 through 1979.
5. Your net invoice charge to the US Environmental Protection Agency for your completed research on this matter and for your providing me with copies of the above described eleven recorded instruments is \$123.00.

Thanks again for your work on this matter.

Bob,

I went back to the courthouse to verify this information. My previous search was through August 1957. I had to go into another index today to go back through January 1957. I found 4 more documents. See attached. I also updated my invoice.

New Copies:

Entry #	# of Pages
195788	4
162280	2
163999	2
165317	7

Please give me a call if you have any questions.

Thanks,

Bryan Hamner

Bryan,

Via return email, please confirm if the following information correctly summarizes your findings from your research in the Terrebonne Parish Land Records grantor/grantee index for the period 1957 through 1979:

6. You found only six recorded instruments that document Delta Iron Works, Inc, had purchased six separate parcels of land in Terrebonne Parish.
7. You did, as a pdf attachment, email copies of the same six instruments to Robert Werner.
8. You found no recorded instrument that documented Delta Iron Works, Inc, sold any land in Terrebonne Parish Chromalloy American Corporation.
9. Your net invoiced charge to the US Environmental Protection Agency for your research is \$88.00.

Thanks again for your work on this matter.
